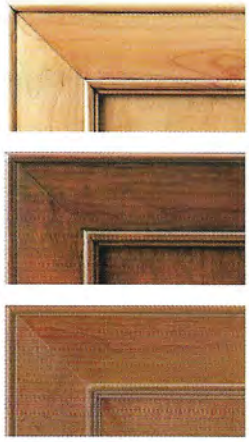
GLAZE AND PAINT



GLAZE OVER STAIN

Glaze is applied over the top of the base stain and then hand wiped for a unique finish. Since glazed cabinetry is hand finished, no two doors are exactly the same.

GLAZE OVER PAINT

The profiles of doors, drawer fronts and large mouldings are highlight glazed by hand. The highlight glazing affects only the areas where the glaze is applied; the rest of the product does not change color. Since glazed cabinetry is hand finished, no two doors are exactly the same.

PAINTED FINISHES

Offer a classic look for cabinetry and have inherent characteristics that differ from stained cabinetry. Please ask your designer for complete details. Signed paint awareness form required prior to purchase.

CUSTOM PAINT OPTIONS

Make your Painted Maple or Oak cabinets even more unique and personal. Choose from a wide selection of custom paint options, with or without a glaze, to reflect your individual style.

WOOD SPECIES

Natural variations are part of the beauty of real wood and should not be viewed as defects. Burls, pecks, knots and mineral streaks can all add rich detail. Even color can vary greatly within a single cabinet door. Whether your design scheme and desire call for maximum consistency or unique character, we offer species across the spectrum to suit your needs.

RUSTIC ALDER

Is fine, straight-grained and even textured, in a reddish-tinged light brown color that stains evenly. Its character spots, knots, burls and blemishes do not affect durability.

MAPLE

Offers a smooth, closed grain pattern, generally off-white with varying tones of light pink and yellow-brown. Its natural resin turns it amber as it ages.

OAK

Features wide open grain patterns and extreme durability. Variations in grain pattern and color, plus small knots and pin holes are elements of its distinctive natural beauty.

CHERRY

Is a rich, multi-colored hardwood noted for its flowing grain pattern. Pitch pockets, checks, pin knots and sap wood all occur naturally. Color varies from light to deep reddish brown and will darken or mellow with age, particularly with natural or light stain finishes.

RUSTIC CHERRY

Offers a country look and feel and more character elements than simple cherry.

HICKORY

Is known for its strength, open grain and distinctive color variation within each piece, from light to deep brown. Its unpredictable color spread is especially noticeable in natural or light finishes, with darker stains mellowing the range.

RUSTIC HICKORY

Is perfect for a rural-themed appearance that's rich in character and tone.
